“The Enterprise Agreement for Wilde is a direct enabler for productivity. We are able to use the latest version of software and leverage those improvements for increased productivity and capabilities. It removes the hassle of tracking which workstation has a license for what product...it makes it so easy at budget time not having to guess how many copies of which product you may need to buy in the upcoming year. The Enterprise Agreement is one of the smartest software purchases we have made.”

-- Robert Reeder, CIO of WA Wilde
