Dedicated Access

A Secure Infrastructure To Meet Stringent COOP Requirements

Integrate legacy transport protocols with scalable Metropolitan Ethernet Connectivity services. Leverage our private Internet Access or connect remote field offices together to satisfy COOP requirements, while realizing significant savings over leased-line alternatives such as ATM or Frame Relay.

- Leverage Time Warner cable cost advantage over traditional carrier circuits
- Widely standardized, plug and play Ethernet technology
- Scalable bandwidth increments flexible to your continuity plans

Branch Office Connectivity

Upgrade Data Bandwidth and Reduce IT Costs

Data Infrastructure Services to reduce IT spending and ramping up eGovernment efforts. Provisioned and serviced quickly from a scalable and secure network, the Branch Office connectivity products are designed to help agencies consolidate and/or diversify their infrastructure for contingency planning.

- Achieve telecom diversity without sacrificing speed or reliability
- Cost effective connectivity tiers specific to your branch office bandwidth requirements
